'Subir Chowdhury Fellowship on Quality & Economics'

Established by the London School of Economics and Political Science, this LSE research Fellowship is devoted to examining the impact of people quality on the economies of nations. The Fellowship allows for any scholar to participate in the program, regardless of ethnicity or national origin and spend time at LSE working on "Quality and Economics" with one Fellow supported for a period to 3 months annually. This Fellowship is the first of its kind in the world in the field of "Quality and Economics".
